BUTT WELD & ELECTROFUSION

PRODUCT	DESCRIPTION	DAILY RATE
	<u>Electrofusion Machine Rofuse 400 Turbo [EFM001/2]</u> Universal electrofusion welding unit for PE and PP fittings up to 400mm, Scanner for barcodes fittings. USB recording for traceability	R420/d
	<u>Electro Fusion Machine Geberit ESG 3 [EFM002]</u> Electrofusion machine for welding all Geberit HDPE pipes 40mm to 315mm	R360/d
	<u>Electro Fusion Welding Accessories Geberit [EWA001,2]</u> Clamp set used when electro welding 200, 250 and 315mm Geberit drainage pipe	R235/d
	<u>Butt Welding Accessories Geberit 315 [BWA001]</u> Complete machine to weld Geberit HTPE pipe. Set includes full Universal machine including accessory set to weld 225, 250 and 315mm	R600/d
	<u>Butt Welding Machine Geberit Universal [BWM001]</u> Complete machine to weld Geberit HTPE pipe. Set includes weld plate support, pipe support prism, tension devices, electric plane and heating plate	R530/d
	<u>Butt Welding Machine Geberit Media [BWM002/.1]</u> Complete machine to weld Geberit HTPE pipe. Set includes weld plate support, pipe support prism, tension devices, electric plane and heating plate	R485/d
	<u>Geberit Heat Plate KSS 200mm [GHP001]</u> Used for hand welding to a maximum of 75mm Pipe	R200/d
	<u>Geberit Hand Held Pipe Scraper [GPS003]</u> Pipe Scraper to remove oxidation layer for electro weld socket. 63mm to 160mm	R275/d

TESTING PRESSURE & DRAINAGE

PRODUCT	DESCRIPTION	DAILY RATE
	<u>Pressure Testing Machine [PTP001]</u> Double shut off and purge valve system, to ease test pressure adjustment	R125/d

DRAIN CLEANING

PRODUCT	DESCRIPTION	DAILY RATE
	<u>Drain Cleaning Machine Rospi Handheld [DCM002]</u> For cleaning of all pipes with a 10 – 75mm pipe diameter. Elimination of all obstructions in the drain pipes of sinks, hand wash basins, showers, bath tubs and toilets	R125/d

Drain Cleaning Machine R600 Rothenberger 22mm Set [DCM001]
 Useful in pipes ¾" – 6" in diameter, light and compact. Ideal for general maintenance on baths, wash basins, toilets, kitchens, waste pipes, drains and down pipes. 6 Piece tool set including gloves. 22.5m spiral.

R315/d

PIPE JOINING

PRODUCT

DESCRIPTION

DAILY RATE

Socket Fusion Machine Rothenberger [SFM001]
 Suitable for fusion of Coprax pipe from 20mm – 63mm

R175/d

Socket Fusion Machine Rothenberger [SFM002]
 Suitable for fusion of Coprax pipe from 75mm – 110mm

R210/d

Super Cut Threading Set [HTT001]
 Heavy duty cast iron construction. Easy start die geometry for easy thread starting. ½" to 2" Set

R205/d

Press Tool Set Battery Geberit ACO202[2] 16mm – 50mm [PTS001/.1/.2]
 Battery powered Hydraulic press tool for pressing Mepla fitting 16mm to 50mm

R375/d

Press Tool Set Mains Geberit EFP202[2] 16mm -50mm [PTS002]
 Mains powered Hydraulic press tool for pressing Mepla fitting 16mm to 50mm

R375/d

Hydraulic Bending Set Geberit Mepla [HBS001]
 Used for bending Geberit Mepla pipes 16, 20, 26 and 32mm

R295/d

Crimping Set Geberit 16mm-26mm [HOCS001]
 For pressing Mepla press fittings 16 – 20 and 26mm

R235/d

Geberit Crimping Jaw Mepla 63mm [GCJ001]
 Mepla pressing collar for pressing Mepla press fittings with Geberit compatibility 2

R265/d

Geberit Crimping Jaw Mepla 75mm [GCJ002]
 Mepla pressing collar for pressing Mepla press fittings with Geberit compatibility 2

R265/d

BREAKING & DRILLING

PRODUCT	DESCRIPTION	DAILY RATE
	<p><u>Breaker TE-3000-AVR 230v [BRT001/.1]</u> This machine brings impressive hammering power to big concrete demolition jobs. Includes trolley for easy transportation.</p>	R285/d
	<p><u>Narrow-Flat Chisel [NFC001/.1]</u> Narrow Flat Chisel used with the TE-3000 Breaker</p>	R65/d
	<p><u>Pointed Chisel [PCB001/.1]</u> Pointed Chisel used with the TE-3000 Breaker</p>	R65/d
	<p><u>Wide Flat Chisel [WFC001]</u> Wide Flat Chisel used with the TE-3000 Breaker</p>	R85/d
	<p><u>Breaker TE-1500-AVR 230v [No 3] [BRT002]</u> Extensive demolition work at or near floor level. Breaking out openings for stairs, risers and shafts</p>	R220/d
	<p><u>Narrow-Flat Chisel [NFC002/.1/.2/.2/.4]</u> Narrow Flat Chisel used with the TE-1500 Breaker</p>	R45/d
	<p><u>Pointed Chisel [PCB002/.1/.2/.3/.4]</u> Pointed Chisel used with the TE-1500 Breaker</p>	R45/d
	<p><u>Breaker TE-700-AVR 230v [No 2] [BRT003]</u> Extensive demolition work at or near floor level. Breaking out openings for stairs, risers and shafts</p>	R165/d
	<p><u>Narrow-Flat Chisel [NFC003]</u> Narrow Flat Chisel used with the TE-700 Breaker</p>	R45/d
	<p><u>Pointed Chisel [PCB003]</u> Pointed Chisel used with the TE-700 Breaker</p>	R45/d
	<p><u>Breaker TE-60-AVR 230v [No 20] [COT001/.1]</u> Medium level demolition work. Coring up to 4" in masonry</p>	R155/d
	<p><u>Narrow-Flat Chisel [NFC004/.1]</u> Narrow Flat Chisel used with the TE-60 Breaker</p>	R45/d

	<p align="center"><u>Pointed Chisel [PCB004/.1]</u> Pointed Chisel used with the TE-60 Breaker</p>	R45/d
	<p align="center"><u>Hammer drill bit 24mm [HDB001]</u> Base material: Reinforced concrete, concrete, masonry, brick, sand-lime block SDS max tool types. Used with the TE-60 Breaker</p>	R95/d
	<p align="center"><u>Rotary Hammer TE-1 230v [ROH001/.1]</u> Everyday hammer drilling in concrete, masonry and natural stone. Reverse rotation is useful for removing stuck drill bits.</p>	R90/d
	<p align="center"><u>Rotary Hammer TE-7 A [ROH002]</u> Drilling and hammer drilling in concrete and masonry, corrective chiselling and small channel openings in concrete. Comes with HSS and SDS Chuck feature</p>	R90/d
	<p align="center"><u>Percussion Core Bit 45mm [PCBA001]</u> Drilling through masonry with the TE-60</p>	R65/d
	<p align="center"><u>Percussion Core Bit 55mm [PCBA002]</u> Drilling through masonry with the TE-60</p>	R85/d
	<p align="center"><u>Percussion Core Bit 125mm [PCBA003]</u> Drilling through masonry with the TE-60</p>	R160/d
	<p align="center"><u>Diamond Coring Tool DD-200 with Stand [DCT001]</u> 25mm to 400mm wet drilling. Making penetrations for ducts, pipes and cables. Openings for ventilations. Stitch drilling for breaches. Coring holes for service entries. Core drilling in ceilings, walls and floors without hammering or vibration</p>	R590/d
	<p align="center"><u>Water Supply for Coring Machine [DCT001.1]</u> Used with the Coring D200 Tool as a constant water supply</p>	R135/d
	<p align="center"><u>Accessory Kit for DD-200 Coring Tool [DCT001.2]</u> Includes all the required tooling to get the job done</p>	Included
	<p align="center"><u>Diamond Core Bit DD-B 52/430 [DCB004]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage</p>	R150/flat
	<p align="center"><u>Diamond Core Bit DD-B 72/430 [DCB005]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage</p>	R200/flat

	<u>Diamond Core Bit DD-B 77/430 [DCB006]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R200/flat
	<u>Diamond Core Bit DD-B 102/430 [DCB001]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R180/flat
	<u>Diamond Core Bit DD-B 112/430 [DCB008]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R200/flat
	<u>Diamond Core Bit DD-B 122/430 [DBC002]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R200/flat
	<u>Diamond Core Bit DD-B 162/430 [DCB007]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R200/flat
	<u>Diamond Core Bit DD-B 202/430 [DCB003]</u> Used with the DD-200 Diamond Coring Tool – Flat rate charged + R200/mm of tooth usage	R300/flat

CUTTING AND CHASING

PRODUCT	DESCRIPTION	DAILY RATE
	<u>Slitting Machine DCH 180-SL 230v [SLM001]</u> Quick neat chasing for cable conduits and pipes in electrical, plumbing, heating and air conditioning installations, For use on concrete, sand-lime block and brick.	R195/d
	<u>Univ Vacuum Cleaner VC 40-U 230v [UNV001]</u> Universal Hybrid vacuum cleaner. Used with all dustless Hilti products. Included with the Hilti Slitting machine above	R50/d
	<u>Angle Grinder DCG 230-S 230v [ANG001]</u> General cutting and grinding. Surface finishing work on all materials.	R95/d
	<u>Angle Grinder DCG 125-S 230v [ANG002]</u> Disc diameter of 125mm with active torque control. Cutting and grinding mineral materials, masonry, brick, natural stone and metal	R80/d
